

OFSAA Alumni Scholarships

OFSAA established OFSAA Alumni Scholarships in 2004. This was originally meant to be a legacy from the 50th celebration of OFSAA but did not take effect until 2 years later. A rotational system was set up so that over a 4-year span, students in all Associations would have an opportunity to apply for this scholarship. Up to four successful candidates receive \$500 scholarships once they provide proof of registration at a Canadian post-secondary institution and a plaque, recognizing their achievement, is sent to the school and presented at graduation. A write-up with a photo appears annually in the fall Bulletin. Every effort is made by a screening committee to select an equal number of males and females each year. In some years the number of scholarships provided varies based on donations and/or the number of applications received.
